### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with the attorney Walter F. Fasse on Wednesday, May 12, 2004.

The application has been amended as follows:

#### In the Specification

- The title "Shunt for squib" has been changed to -- Shunt for squib having an improved securing mechanism --.
- In the abstract, lines 4-5, the phrase "means for solving the problem is a shunt for squib wherein the" has been deleted.

#### In the Claims

- Claim 1, line 11, "the female connector" has been changed to -- a female connector --.
- Claims 2-16, line 1, "A shunt" has been changed to -- The shunt --.

### REASON FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: In combination with all the limitations recited in the independent claim, all the prior arts do not show a shunt for squib comprising a shunt body having a short-circuit piece and a protrusion with a root end on the outer face of the shunt body. The protrusion is extending from the root end in a direction tilting toward the outside from the shunt body at an angle within 90 degrees to a direction being

parallel to the central axis of the shunt body and heading toward the top. The top end of the protrusion is pushed toward a connection hole of the shunt body and undergoes deformation by bending. The protrusion restitutes to protrude in a fitting concave of a socket when the shunt body fits into the socket.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
